INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1989, ch. 127, pars. 1001 et seq., as amended).

Section 909.50 Disclosure Requirements

- a) The information required to be disclosed by this Rule shall not be minimized, rendered obscure or presented in an ambiguous fashion or intermingled with the text of the advertisement so as to be confusing or misleading.
- b) No advertisement shall omit material information or use words, phrases, statements, references or illustrations if such omission or such use has the capacity, tendency or effect of misleading or deceiving purchasers or prospective purchasers as to the nature or extent of the insurance insurer, any policy benefit payable, loss covered, premium payable or state or federal tax consequences. The fact that the policy offered is made available to a prospective insured for inspection prior to consummation of the sale, or an offer is made to refund the premium if the purchaser is not satisfied, does not remedy misleading statements.
- c) In the event an advertisement used "Non-Medical," "No Medical Examination Required" or similar terms where issue is not guaranteed, such terms shall be accompanied by a further disclosure of equal prominence and in juxtaposition thereto to the effect that issuance of the policy may depend upon the answers to the health questions.
- d) An advertisement shall not use as the name or title of a life insurance policy or an annuity, any phrase which does not include the words "life insurance" or "annuity" unless accompanied by other language clearly indicating it is life insurance.
- e) An advertisement shall prominently include the specific title of the type of the policy being marketed and such title shall not be misleading as to the policy benefits.
- f) An advertisement of an insurance policy marketed by the direct response techniques shall not state or imply that because there is no agent or commission included, there will be a cost saving to prospective purchasers unless such is the fact. No such cost savings may be stated or implied without justification satisfactory to the Insurance Director prior to use.

DEPARTMENT OF INSURANCE

NOTICE OF ADOPTED AMENDMENTS

- g) An advertisement for a policy containing graded or modified benefits shall prominently display any limitation of benefits. If the premium is level and coverage decreases or increases with age or duration, such fact shall be prominently disclosed.
- h) An advertisement for a policy with non-level premiums shall prominently describe the premium changes.
- i) Dividends
- 1) An advertisement shall not utilize or describe dividends in a manner which is misleading or has the capacity or tendency to mislead.
 - 2) An advertisement shall not state or imply that the payment or amount of dividends is guaranteed. If dividends are illustrated they must be based on the insurer's current dividend scale and the illustration must contain a statement to the effect that they are not to be construed as guarantees or estimates of dividends to be paid in the future.
 - 3) An advertisement shall not state or imply that illustrated dividends under a participating policy and/or pure endowments will be or can be sufficient at any future time to assure, without the further payment of premiums, the receipt of benefits, such as a paid-up policy, unless the advertisement clearly and precisely explains
 - A) what benefits or coverage would be provided at such time and
 - B) under what conditions this would occur.
- j) An advertisement shall not state that a purchaser of a policy will share in or receive a stated percentage or portion of the earnings on the general account assets of the company.
- k) Testimonials or Endorsements by Third Parties
- 1) Testimonials used in advertisements must be genuine; represent the current opinion of the author; be applicable to the policy advertised, if any; and be accurately reproduced. In using a

- testimonial the insurer makes as its own all of the statements contained therein, and such statements are subject to all the provisions of this Rule.
- 2) If the individual making a testimonial or an endorsement has a financial interest in the insurer or a related entity as a stockholder, director, officer, employee or otherwise, or receives any benefit directly or indirectly other than required union scale wages, such fact shall be disclosed in the advertisement.
 - 3) An advertisement shall not state or imply that an insurer or policy has been approved or endorsed by a group of individuals, society, association or other organization unless such is the fact and unless any proprietary relationship between an organization and the insurer is disclosed. If the entity making the endorsement or testimonial is owned, controlled or managed by the insurer, or receives any payment or other consideration from the insurer, for making such endorsement or testimonial, such fact shall be disclosed in the advertisement.
 - 1) An advertisement shall not contain statistical information relating to any insurer or policy unless it accurately reflects recent and relevant facts. The source of any such statistics used in an advertisement shall be identified therein.
 - m) Introductory, Initial or Special Offers and Enrollment Periods
 - 1) An advertisement of an individual policy or combination of such policies shall not state or imply that such policy or combination of such policies is an introductory, initial or special offer or that applicants will receive substantial advantages not available at a later date, or that the offer is available only to a specified group of individuals, unless such is the fact. An advertisement shall not describe an enrollment period as "special" or "limited" or use similar words or phrases in describing it when the insurer uses successive enrollment periods as its usual method of marketing its policies.

DEPARTMENT OF INSURANCE

NOTICE OF ADOPTED AMENDMENTS

- 2) An advertisement shall not state or imply that only a specific number of policies will be sold, or that a time is fixed for the discontinuance of the sale of the particular policy advertised because of special advantages available in the policy.
- 3) An advertisement shall not offer a policy which utilizes a reduced initial rate in a manner which overemphasizes the availability and the amount of the initial premium. When an insurer charges an initial premium that differs in amount from the amount of the renewal premium payable on the same mode, all references to the reduced initial premium shall be followed by an asterisk or other appropriate symbol which refers the reader to that specific portion of the advertisement which contains a full rate schedule for the policy being advertised.
- 4) An enrollment period during which a particular insurance policy may be purchased on an individual basis shall not be offered within this State unless there has been a lapse of not less than six months between the close of the immediately preceding enrollment period for the same policy and the opening of the new enrollment period. The advertisement shall specify the date by which the applicant must mail the application, which shall be not less than ten days and not more than forty days following the date on which such enrollment period is advertised for the first time. This Rule applies to all advertising media: i.e., mail, newspapers, radio, television, magazines and periodicals, by any one insurer. The phrase "any one insurer" includes all the affiliated companies of a group of insurance companies under common management or control. This Rule does not apply to the use of a termination or cut-off date beyond which an individual application for a guaranteed issue policy will not be accepted by an insurer in those instances where the application has been sent to the applicant in response to his request. It is also inapplicable to solicitations to employees or members of a particular group or association which otherwise would be eligible under specific provisions of the Insurance Code for group or blanket insurance. In cases where an insurance product is marketed on a direct mail basis to prospective

- p) An advertisement for the solicitation or sale of a preneed funeral contract or prearrangement as defined in Section 909.20 above, which is funded or to be funded by a life insurance policy or annuity contract shall disclose the following:

11) Differences Between Proposal and Final Version:

The only changes in the text of the amendments which were made during the first notice period are in the portion of Appendix C which concerns inspection frequency. The term "none" was changed to "no mandated inspection," "1 year" was changed to "at least annually" and the phrase "at least every" was added to the other specific inspection frequencies which are specified. These changes are clarifying and do not change the substance of the rules.

In addition, several technical and grammatical changes in the text of the amendments were made in response to comments from the Joint Committee on Administrative Rules. No other changes were made in the text of the amendments.

12) Have all changes agreed upon by the agency and the Joint Committee been made as indicated in the agreement letter issued by the Joint Committee?

The Department has made all the changes to which it agreed with the Joint Committee on Administrative Rules.

13) Will these Proposed Amendments Replace an Emergency Rule Currently in Effect? No.14) Are there any other Amendments Pending on this Part? No.15) Summary and Purpose of Rules:

The Department of Public Health is adopting amendments to the rules governing the licensure of clinical laboratories in order to implement two recent statutory changes.

The statutory changes implemented by these amendments are included in Public Act 86-1292 (House Bill 3694), which took effect on September 6, 1990. Section 0.9 of Public Act 86-1292 amended the Illinois Clinical Laboratory Act by (1) eliminating the requirement for registration of laboratories which only perform "a small number of minor tests" and (2) specifying that "strep screening tests" must be included in the Department's list of minor tests. These amendments implement both of these statutory changes.

The amendments include changes in Section 450.35, which contains the list of tests which the Department considers "minor." The Department is adding strep screening tests to comply with the statutory changes. The Department is also adding pinworm tests. Special provisions are also being added to allow exempt laboratories operated by local health departments to perform RPR tests for syphilis under certain specified conditions. These provisions are being added as Section 450.35(a)(4).

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF ADOPTED AMENDMENTS

Changes are also being made to eliminate the references to "registration" in Sections 450.5, 450.20, 450.30, 450.60, and Appendix C. Other changes are also being adopted in these provisions to insure that the rules are consistent with the statutory changes.

These changes will reduce the requirements for laboratories which only perform minor tests. Currently the Department has received about 1300 registrations, which will be affected by these changes. The economic impact of these amendments is expected to be minimal. The amendments have been reviewed by the Clinical Laboratory and Blood Bank Advisory Board.

1) Exempt Registration Laboratory

A) In order to qualify as an exempt a "Registration" laboratory, the laboratory must meet the definition of a "Class I Permit" laboratory and only conduct those tests specified in the regulations. As set forth in the Illinois Clinical Laboratory Act (Ill. Rev. Stat. 1989 and 1990 Supp. 1987, ch. 111 1/2, par. 621 et seq., as amended by P.A. 95-1025, effective June 30, 1988; P.A. 95-1202, effective August 25, 1988; and P.A. 95-1251, effective August 30, 1988) ("the Act"), and this Part, an exempt a "Registration" laboratory can be any "single practice of medicine, podiatry or dentistry" which owns and operates a laboratory exclusively for its patients, or a local health authority or designated agency which owns and operates a laboratory for its own clients or patients, at stated locations when testing is limited to tests which are set forth in Section 450.35(a).

B)

~~The Registration Laboratory must register annually with the Department of Public Health (Department) on the form set forth as Appendix A of this Part and has no other regulatory requirements when conducting the listed tests for its clients or patients at its stated location(s). However, if a Registration Laboratory if an exempt laboratory conducts tests other than those listed it must seek another level of classification. Furthermore, health screening activities under Section 1-103 and 2-120 of the Act may be conducted by laboratories at locations other than the location or locations set forth in the permit or licensure application, however such health screenings must be conducted in accordance with Sections 450.1300, 450.1310, 450.1320, and 450.1330. An Exempt A "Registration" Laboratory is not exempt from the provisions of this Part concerning health screening.~~

C)

The Department expects physicians, podiatrists, dentists, local health authorities, and designated agencies to qualify as exempt laboratories to seek "Registration" Laboratory status.

2) Class I Laboratory

A)

As set forth in this Part, a "Class I Permit" laboratory can be any "single practice of medicine, podiatry or dentistry" which owns and

SUBPART A: GENERAL

Section 450.5 Scope and Applicability

a) The major thrust of this regulatory scheme is to require some form of regulation licensure or registration of all entities that which perform analysis of human specimens under the following five stage classification scheme:

1) Exempt Registration Laboratory;

2) Class I Permit Laboratory;

3) Class II Permit Laboratory;

4) Class III Permit Laboratory;

5) Licensed Laboratory.

b) All laboratories will be regulated as one of these five levels of classification depending upon the tests they conduct, the source of the specimens, and organizational structure. Each of these levels, except exempt laboratories the registration-class, has regulatory requirements concerning the qualifications of the laboratory director, qualifications of laboratory personnel, proficiency testing and quality control as set forth in this Part. (See Appendix C Registration, Permit, and License Requirements--An Overview).

operates a laboratory exclusively for its patients or a local health authority or designated agency which owns and operates a laboratory for its own clients or patients at stated locations when testing is limited to simple tests and those tests or categories of tests set forth by regulations as defined of this Part. Some or all testing may be done by a laboratory assistant under the direction of the physician, podiatrist or dentist.

B) The "Class I Permit" laboratory must obtain a permit annually from with the Department ~~on the form set forth as Appendix A of this Part~~. Generally, the other major requirements are as follows:

- i) the minimum level for the qualifications of the laboratory director include any physician (i.e. M.D., D.O., or D.C.), dentist, podiatrist, or person with at least a master's degree with a major in chemical or biological sciences.
- ii) the minimum level for the qualifications of laboratory personnel include a laboratory assistant. Section 450.450 of this Part specifies that a laboratory assistant is any person who meets the education and experience requirements set by the laboratory director.
- iii) the minimum level of proficiency testing requires proficiency testing for all tests conducted by the laboratory when available from an approved proficiency testing service.
- iv) the minimum level of quality control requires such testing for all tests conducted by the laboratory.

C) The Department expects physicians, podiatrists, dentists, local health authorities, and designated agencies to seek "Class I Permit" Laboratory status. Health screening activities under Section 1-103 and 2-120 of the Act may be conducted by class I laboratories at locations other than the location or locations set forth in the permit or licensure application, however such health screenings must be conducted in accordance with Sections 450.1300, 450.1310, 450.1320, and 450.1330 of this Part.

B) The "Class II Permit" laboratory must obtain a permit annually from with the Department ~~on the form set forth as Appendix A of this Part~~. Generally, the other major requirements are as follows:

- i) the minimum level for the qualifications of the laboratory director includes a physician licensee used to practice medicine in all of its branches, or a person with at least a master's degree with a major in chemical or biological sciences.
- ii) the minimum level for the qualifications of laboratory personnel includes a laboratory technician. Section 450.440 of this Part specifies that a laboratory technician is any person who completes at least 60 hours of academic credit including chemistry and biology, a high school graduate who has completed a 1 year accredited training program, or a high school graduate who has completed an official military medical laboratory procedures course of at least 50 weeks.
- iii) the minimum level of proficiency testing requires proficiency testing for all tests conducted by the laboratory.
- iv) the minimum level of quality control requires such testing for all tests conducted by the laboratory.

C) The Department expects physicians, local health authorities, and designated agencies to seek "Class II Permit" laboratory status. Health screening activities under Section 1-103 and 2-120 may be conducted by class II laboratories at locations other than the

- B) are located in an enterprise zone established pursuant to the Illinois Enterprise Zone Act, and
- C) are certified by the Department of Commerce and Community Affairs as complying with the requirements specified in Clauses (A) and (B) above, and
- D) retain at least 90% of the jobs in place on the date on which the exemption is granted and for the duration of the exemption. (Sections 1d and 1f of the Act)

- 2) Business enterprises seeking certificates of eligibility must make application to the Department of Commerce and Community Affairs on application forms provided by the Department of Commerce and Community Affairs. The Illinois Department of Revenue has no authority to certify business enterprises for the purposes of this exemption.

- 3) Once a business enterprise is certified, only the use or consumption within the enterprise zone of tangible personal property in manufacturing or assembling qualifies for the exemption. No item to be used or consumed outside the Enterprise Zone qualifies for the exemption. Sales of tangible personal property used in activities which do not constitute manufacturing or assembling remain subject to the tax. The Department has defined manufacturing and assembling at Sections 130.330(b)(2) through (8) of this Part which are incorporated by reference herein.

- 4) The tangible personal property must be used in a manufacturing or assembling process but is not limited to machinery and equipment. The exemption is available for all tangible personal property used or consumed in manufacturing or assembling and includes repair and replacement parts for machinery and equipment used primarily in the process of manufacturing or assembling tangible personal property for wholesale or retail sale, or lease, and equipment, manufacturing fuels, material and supplies for the maintenance, repair or operation of such manufacturing or assembling machinery or equipment. (Section 1d of the Act)

- 5) For example, this exemption extends to:

- A) machinery and equipment which would otherwise qualify under the manufacturing machinery and equipment exemption because of being used in the activities set out at Section 130.330(d)(3) of this Part,

and repair and replacement parts for such machinery and equipment,

- B) hand tools used in the activities set out at Section 130.330(d)(3) of this Part,
- C) materials and supplies, such as abrasives, acids, polishing compounds or lubricants used or consumed in the activities set out at Section 130.330(d)(3) of this Part,
- D) machinery and equipment and hand tools used to maintain, repair or operate machinery and equipment which qualifies for the manufacturing machinery and equipment exemption as set out in Section 130.330 of this Part,
- E) materials and supplies, such as lubricants, coolants, adhesives, solvents or cleaning compounds used to maintain, repair or operate machinery or equipment which qualifies for the manufacturing machinery and equipment exemption as set out in Section 130.330 of this Part,
- F) any fuel, such as coal, diesel oil, gasoline, natural gas, artificial gas or steam which would be subject to Retailers' Occupation Tax or Use Tax liability when sold at retail is exempt from those taxes when sold for use as fuel for machinery and equipment which qualifies for the manufacturing machinery and equipment exemption as set out in Section 130.330 of this Part, and
- G) protective clothing and safety equipment such as gloves, coveralls, aprons, goggles, safety glasses, face masks and air filter masks used when maintaining, repairing or operating machinery and equipment which qualifies for the manufacturing machinery and equipment exemption as set out in Section 130.330 of this Part.

- 6) The law requires that tangible personal property be used primarily in manufacturing or assembling. Therefore, tangible personal property which is used primarily in an exempt process and partially in a nonexempt manner would qualify for exemption. However, the purchaser must be able to establish through adequate records that the tangible

personal property is used over 50 percent in an exempt manner in order to claim the deduction.

- 7) The exemption does not extend to tangible personal property which is not used or consumed in the manufacturing or assembling process itself. This is true even though the item is used in an activity which is essential to manufacturing or assembling. For example, the exemption does not extend to:
 - A) tangible personal property used or consumed in general production plant maintenance activities or in the maintenance of machinery and equipment which would not qualify for the manufacturing machinery and equipment exemption,
 - B) tangible personal property used or consumed in research and development of new products, production techniques or production machinery,
 - C) tangible personal property used to store, convey, handle or transport materials, parts or subassemblies prior to their entrance into the production cycle,

 - E) tangible personal property used to transport work-in-process or finished articles between production plants,
 - F) tangible personal property used or consumed in managerial, sales or other nonproduction, nonoperational activities such as disposal of waste, scrap or residue, inventory control, production scheduling, work routing, purchasing, receiving, accounting, fiscal management, general communications, plant security, product exhibition and promotion or personnel recruitment, selection or training,
 - G) tangible personal property used or consumed as general production plant safety equipment,
 - H) tangible personal property and fuel used or consumed in general production plant ventilation, heating, cooling, climate control or illumination, not required by a manufacturing or assembling process,

DEPARTMENT OF REVENUE

- I) tangible personal property used or consumed in the preparation of food and beverages by a retailer for retail sale, such as restaurants, vending machines and food service establishments,
- J) fuel used or consumed in the operation of any machinery or equipment which would not qualify for exemption under the manufacturing machinery and equipment exemption as set out in Section 130.330 of this Part,
- K) building materials which become physically incorporated into foundations or housings for machinery and equipment--although such building materials may qualify for exemption under the provisions of Section 130.1951(a) of this Part if all requirements set out therein are met, and
- L) building materials dedicated to general construction purposes at a production plant--although such building materials may qualify for exemption under the provisions of Section 130.1951(a) of this Part if all requirements set out therein are met.
- 8) This exemption from Illinois Retailers' Occupation Tax is available to all retailers registered to collect Illinois sales tax. It is not restricted to retailers located in jurisdictions which have established enterprise zones.

9) Product Use

The statute requires that the product produced as a result of the manufacturing or assembling process be tangible personal property for sale or lease. For information concerning this requirement, see Section 130.330(e) of this Part which is incorporated by reference herein.

10) Sales to Lessors of Certified Business Enterprises

The substance and provisions of Section 130.330(f) of this Part are incorporated by reference herein. For the purpose of this incorporation, references in Section 130.330(f) to "manufacturers" mean "certified business enterprises".

11) Exemption Certification

- A) When a certified business enterprise (or the lessor to a certified business enterprise) initially purchases

qualifying items from an Illinois registered supplier, the supplier must be provided with:

- i) a copy of the current certificate of eligibility issued by the Department of Commerce and Community Affairs, and
- ii) a written statement signed by the certified business enterprise (or its lessor) that the items being purchased will be used or consumed (or leased for use or consumption) in a manufacturing or assembling process at a location in an enterprise zone established under the authority of the Illinois Enterprise Zone Act. (Sections 1d, 1e, 1f and 5k of the Act)

- B) So long as a copy of a current certificate of eligibility and a statement of exemption are maintained by a supplier, the certified business enterprise (or its lessor) may claim the exemption on subsequent purchases from that supplier by indicating on the face of purchase orders that the transaction is exempt by referencing the certificate of eligibility and statement of exemption. This procedure on subsequent purchases is authorized only so long as the certificate of eligibility remains current. That is, the exemption can be claimed only as to purchases made during the effective period of the certificate of eligibility specified by the Department of Commerce and Community Affairs on the face of the certificate of eligibility.

- C) If a certified business enterprise (or its lessor) purchases tangible personal property which is to be used in the process of manufacturing or assembling, then the certified business enterprise (or its lessor) must certify that fact to the seller in writing in order to relieve the seller of the duty of collecting and remitting tax. However, the purchaser who certifies that the item is being purchased for a qualifying use within an enterprise zone by a qualified business enterprise will be held liable for the tax by the Department if it is found that the item was not so used.

- D) An item which initially is used primarily in a qualifying manner at a qualifying location but which is converted to a nonexempt use or is moved to a nonexempt location will become subject to tax at the

time of its conversion based on the fair market value of the item at the time of conversion.

- c) Tangible Personal Property Purchased for Use or Consumption within an Enterprise Zone in the Process of Graphic Arts Production by Certain Business Enterprises Certified by the Department of Commerce and Community Affairs

1) No state or local Retailers' Occupation Tax applies to retail sales of tangible personal property to be used or consumed within an enterprise zone . . . in the process of graphic arts production if used or consumed at a facility which is a Department of Commerce and Community Affairs certified business and located in a county of more than 4,000 persons and less than 45,000 persons so long as the use or consumption is made by business enterprises that:

- A) Either
- (i) make investments which cause the creation of a minimum of 200 full-time jobs in Illinois; or
 - (ii) make investments which cause the retention of a minimum of 2,000 full-time jobs in Illinois; or
 - (iii) make investments of a minimum of \$40,000,000 and retain at least 90% of the jobs in place on the date on which the exemption is granted and for the duration of the exemption; and

B) are located in an Enterprise Zone established pursuant to the Illinois Enterprise Zone Act, and

C) are certified by the Department of Commerce and Community Affairs as complying with the requirements specified in Clauses (A), (B) and (C) (Sections 1d and 1f of the Act).

2) Business enterprises seeking certificates of eligibility must make application to the Department of Commerce and Community Affairs on application forms provided by the Department of Commerce and Community Affairs. The Illinois Department of Revenue has no authority to certify business enterprises for the purposes of this exemption.

3) Once a business enterprise is certified, only the use or consumption within the enterprise zone of tangible personal property in graphic arts production qualifies for the

DEPARTMENT OF REVENUE

exemption. No item to be used or consumed outside the Enterprise Zone qualifies for the exemption. Sales of tangible personal property used in activities which do not constitute graphic arts production remain subject to the tax. The Department has defined graphic arts production at Section 130.325(b) of this Part.

4) The tangible personal property must be used in a graphic arts production process but is not limited to machinery and equipment. The exemption is available for all tangible personal property used or consumed in graphic arts production and includes repair and replacement parts for machinery and equipment used primarily in the process of graphic arts production, and equipment, graphic arts fuels, material and supplies for the maintenance, repair or operation of such graphic arts machinery or equipment. (Section 1d of the Act)

5) For example, this exemption extends to:

A) machinery and equipment that would otherwise qualify under the graphic arts machinery and equipment exemption because of being used in the activities set out at Section 130.325(c)(3) of this Part and for repair and replacement parts for such machinery and equipment.

B) printing plates, film, fountain solution, blanket wash, and ink additives used in the activities set out at Section 130.325(c)(3) of this Part.

C) materials and prep supplies, such as mylar, masking sheets, developer, hardener, fixer, replenishers, and tape used or consumed in the activities set out at Section 130.325(c)(3) of this Part.

D) machinery and equipment and hand tools used to maintain, repair or operate machinery and equipment which qualifies for the graphic arts machinery and equipment exemption as set out in Section 130.325 of this Part.

E) materials and supplies, such as lubricants, coolants, adhesives, solvents or cleaning compounds used to maintain, repair or operate machinery or equipment which qualifies for the graphic arts machinery and equipment exemption as set out in Section 130.325 of this Part.

F) any fuel, such as coal, diesel oil, gasoline, natural gas, artificial gas or steam which would be subject to Retailers' Occupation Tax or Use Tax liability when sold at retail is exempt from those taxes when sold for use as fuel for machinery and equipment which qualifies for the graphic arts machinery and equipment exemption as set out in Section 130.325 of this Part.

G) protective clothing and safety equipment such as ear plugs, safety shoes, gloves, coveralls, aprons, goggles, safety glasses, face masks and air filter masks used when maintaining, repairing or operating machinery and equipment which qualifies for the graphic arts machinery and equipment exemption as set out in Section 130.325 of this Part.

6) The law requires that tangible personal property be used primarily in graphic arts production. Therefore, tangible personal property which is used primarily in an exempt process and partially in a nonexempt manner would qualify for exemption. However, the purchaser must be able to establish through adequate records that the tangible personal property is used over 50 percent in an exempt manner in order to claim the deduction.

7) The exemption does not extend to tangible personal property which is not used or consumed in the graphic arts production process itself. This is true even though the item is used in an activity which is essential to graphic arts production. For example, the exemption does not extend to:

A) tangible personal property used or consumed in general production plant maintenance activities or in the maintenance of machinery and equipment which would not qualify for the graphic arts production exemption.

B) tangible personal property used to store, convey, handle or transport materials prior to their entrance into the production cycle.

C) tangible personal property used to store, convey, handle or transport finished articles after completion of the production cycle.

D) tangible personal property used to transport work-in-process or finished articles between production plants.

E) machinery or equipment used to place the printed product in the container, package or wrapping in which such property is normally sold to the ultimate consumer thereof.

F) machinery and equipment used to gather information, photograph, transmit data, edit text, prepare drafts or copy or perform other data-related functions prior to final composition, typesetting, engraving or other preparation of the image carrier.

G) Xerographic or photocopying machines.

H) word processing, text editing machinery or computerized equipment unless it is an integral part of a final graphic arts operation such as a computer-controlled typesetting machine or equivalent that is used primarily in graphic arts production.

I) computers used to store data and generate text, maps, graphs or other print-out formats unless the product is an image carrier to be used to repetitively transfer images by printing. For example, a computer which generates an image which may later be reproduced by a graphic arts process would not qualify while a computer-controlled engraving system which produces printing cylinders and computer-controlled digital typesetting equipment would qualify.

J) tangible personal property used or consumed in managerial, sales or other nonproduction, nonoperational activities such as disposal of waste, scrap or residue, inventory control, production scheduling, work routing, purchasing, receiving, accounting, fiscal management, general communications, plant security, product exhibition and promotion or personnel recruitment, selection or training.

K) tangible personal property used or consumed as general production plant safety equipment, or

L) tangible personal property and fuel used or consumed in general production plant ventilation, heating, cooling, climate control or illumination, not required by a graphic arts production process.

NOTICE OF ADOPTED AMENDMENTS

8) This exemption from Illinois Retailers' Occupation Tax is available to all retailers registered to collect Illinois sales tax. It is not restricted to retailers located in jurisdictions which have established enterprise zones.

9) Sales to Lessors of Certified Business Enterprises

The substance and provisions of Section 130.325(d) of this Part are incorporated by reference herein. For the purpose of this incorporation, references in Section 130.325 to "lessee" mean "certified business enterprises."

10) Exemption Certification

A) When a certified business enterprise (or the lessor to a certified business enterprise) initially purchases qualifying items from an Illinois registered supplier, the supplier must be provided with:

- i) a copy of the current certificate of eligibility issued by the Department of Commerce and Community Affairs, and
- ii) a written statement signed by the certified business enterprise (or its lessor) that the items being purchased will be used or consumed (or leased for use consumption) in a graphic arts production process at a location in an enterprise zone established under the authority of the Illinois Enterprise Zone Act. (Sections 1d, 1e, 1f and 5k of the Act)

B) So long as a copy of a current certificate of eligibility and a statement of exemption are maintained by a supplier, the certified business enterprise (or its lessor) may claim the exemption on subsequent purchases from that supplier by indicating on the face of purchase orders that the transaction is exempt by referencing the certificate of eligibility and statement of exemption. This procedure on subsequent purchases is authorized only so long as the certificate of eligibility remains current. That is, the exemption can be claimed only as to purchases made during the effective period of the certificate of eligibility specified by the Department of Commerce and Community Affairs on the face of the certificate of eligibility.

NOTICE OF ADOPTED AMENDMENTS

C) If a certified business enterprise (or its lessor) purchases tangible personal property which is to be used in the process of graphic arts production, then the certified business enterprise (or its lessor) must certify that fact to the seller in writing in order to relieve the seller of the duty of collecting and remitting tax. However, the purchaser who certifies that the item is being purchased for a qualifying use within an enterprise zone by a qualified business enterprise will be held liable for the tax by the Department if it is found that the item was not so used.

D) An item which initially is used primarily in a qualifying manner at a qualifying location but which is converted to a nonexempt use or is moved to a nonexempt location will become subject to tax at the time of its conversion based on the fair market value of the item at the time of conversion.

de) Tangible Personal Property Purchased for Use or Consumption in the Operation of Pollution Control Facilities within an Enterprise Zone by Certain Business Enterprises Certified by the Department of Commerce and Community Affairs

- 1) Effective September 25, 1985, subject to the provisions of Section 1f of the Act or subject to the provisions of Section 5.5 of the Illinois Enterprise Zone Act (Ill. Rev. Stat. 1989, ch. 67 1/2, par. 609.1) the Illinois Retailers' Occupation Tax does not apply to gross receipts from retail sales of tangible personal property to be used or consumed in the operation of pollution control facilities ... within an enterprise zone (Section 1e of the Act) so long as the use or consumption is made by a business enterprise which has complied with the requirements set out at Section 130.1951(b)(1)(A), (B) and (C) of this Part.

2) The phrase "pollution control facilities" is defined as:

- A) "...any system, method, construction, device, or appliance appurtenant thereto, sold or used or intended for the primary purpose of eliminating, preventing or reducing air and water pollution as the term 'air pollution' or 'water pollution' is defined in the 'Environmental Protection Act'... or for the primary purpose of treating, pretreating, modifying or disposing of any potential solid, liquid or gaseous pollutant which is released without such treatment, pretreatment, modification or disposal might be harmful,

detrimental or offensive to human, plant or animal life, or to property." (Section 1a of the Act);

- B) The exemption for pollution control facilities described at Section 130.330 of this Part extends only to pollution control facilities and replacement parts therefor.
- 3) However, if a business enterprise is certified by the Department of Commerce and Community Affairs, all tangible personal property used or consumed by it in the operation of pollution control facilities within an enterprise zone is exempt from tax. In order to qualify, the item must be used exclusively in the enterprise zone and the pollution control facility must be in the enterprise zone. By way of illustration, this exemption includes:
- A) fuel used in operating pollution control facilities,
 - B) chemicals used in the operation of pollution control facilities,
 - C) catalysts used in the operation of pollution control facilities,
 - D) equipment used to test, monitor or otherwise ascertain the suitability of a fuel, chemical or catalyst for use in the operation of pollution control facilities,
 - E) equipment used to monitor or otherwise ascertain the effectiveness of pollution control facilities,
 - F) lubricants and coolants used in the operation of pollution control facilities,
 - G) protective clothing and safety equipment used in the operation of pollution control facilities,
 - H) equipment used to transport fuel, chemicals, catalysts, lubricants, coolants or other operational supplies from a stock pile located in the enterprise zone to a pollution control facility located in the same enterprise zone,
 - I) equipment used to transport filtered, treated or modified pollutants from a pollution control facility in an enterprise zone to another pollution control facility

within the same enterprise zone for further filtering, treatment or modification, and

- D) equipment used to transport filtered, treated or modified pollutants from a pollution control facility in an enterprise zone to a disposal site in the same enterprise zone.
- 4) No item used primarily in any activity other than the operation of pollution control facilities within an enterprise zone can qualify for this exemption. No item used or consumed outside the enterprise zone can qualify for the exemption. No item used or consumed in the operation of pollution control facilities which are located outside the enterprise zone can qualify for the exemption. By way of illustration, the exemption does not extend to:
 - A) equipment used to transport fuel, chemicals, catalysts or any other tangible personal property from a point outside the enterprise zone to a pollution control facility inside the enterprise zone,
 - B) equipment used to transport filtered, treated or modified pollutants from a pollution control facility in an enterprise zone to any location outside the enterprise zone,
 - C) testing equipment used at a location outside an enterprise zone to monitor or otherwise ascertain the effectiveness of pollution control facilities located in an enterprise zone, or
 - D) testing equipment used at a location in an enterprise zone to monitor or otherwise ascertain the effectiveness of pollution control facilities located outside the enterprise zone.
- 5) This exemption from Illinois Retailers' Occupation Tax is available to all retailers registered to collect Illinois sales tax. It is not restricted to retailers located in jurisdictions which have established enterprise zones.
- 6) Sales to Lessors of Certified Business Enterprises
 - A) For this exemption to apply, the purchaser need not himself employ the tangible personal property in the operation of pollution control facilities. If the purchaser leases the items to a lessee-certified business

NOTICE OF ADOPTED AMENDMENTS

enterprise which uses the items in an exempt manner, the sale to the purchaser-lessee will be exempt from tax. A supplier may deduct such sales from his taxable gross receipts provided the purchaser-lessee provides to him a properly completed exemption certificate and the information contained thereon would support the exemption if the sale were made directly to the lessee-certified business enterprise.

- B) Should a purchaser-lessee lease the items to a lessee which is not a certified business enterprise or to a certified business enterprise which does not use those items in the operation of pollution control facilities within an enterprise zone, then the purchaser-lessee will become liable for the tax from which he was previously exempted.

7) Exemption Certification

- A) When a certified business enterprise (or the lessor of a certified business enterprise) initially purchases qualifying items from an Illinois registered supplier, the supplier must be provided with:

- i) a copy of the current certificate of eligibility issued by the Department of Commerce and Community Affairs, and
- ii) a written statement of exemption signed by the certified business enterprise (or its lessor) that the items being purchased will be used or consumed (or leased for use or consumption) in the operation of pollution control facilities at a specified location in a named enterprise zone established under the authority of the Illinois Enterprise Zone Act.

- B) So long as a copy of a current certificate of eligibility and a statement of exemption are maintained by a supplier, the certified business enterprise (or its lessor) may claim the exemption on subsequent purchases from that supplier by indicating on the face of purchase orders that the transaction is exempt by referencing the certificate of eligibility and statement of exemption. This procedure on subsequent purchases is authorized only so long as the certificate of eligibility remains current. That is, the exemption can be claimed only as to purchases made during the effective

period of the certificate of eligibility specified by the Department of Commerce and Community Affairs on the face of the certificate of eligibility.

- C) If a certified business enterprise (or its lessor) purchases tangible personal property which could reasonably be used in the operation of pollution control facilities, then the certified business enterprise (or its lessor) should certify to the seller in writing in order to relieve the seller of the duty of collecting and remitting tax on the sale. However, the purchaser who certifies that the item is being purchased for a qualifying use in an enterprise zone by a qualified business enterprise will be held liable for the tax by the Department if it is found that the item was not so used.

- D) An item which is used primarily in a qualifying manner at a qualifying location but which is converted to a nonexempt use or is moved to a nonexempt location will become subject to tax at the time of its conversion based on the fair market value of the item at the time of conversion to the nonexempt use.

- 6) If this emergency rule is to expire before the end of the 150-day period, please specify the date on which it is to expire. This emergency rule will not expire before the end of the 150-day period.

- 7) Date Filed in Agency's Principal Office: October 14, 1991

- 8) Reason for Emergency: On July 30, 1991, Governor Edgar signed Public Act 87-54, which included the first appropriation to fund the Bonus Incentive Grant (BIG) Program. The operation of BIG had previously been in question since it is subject to annual appropriations by the General Assembly. BIG is also dependent upon College Savings Bonds maturing and the first issue will be redeemed in FY 1992.

ISAC is unable to enact rules for this program, that was funded for the first time, through the regular rulemaking process in sufficient time to make them effective for the 1991-92 academic year. In the absence of emergency rules, students would have no means to apply for the scholarships, ISAC would have no method to make awards to qualified applicants, and general revenue funds appropriated for the 1991-92 academic year would be returned to the state, unexpended, contrary to the intentions of the legislature. Further, this would result in serious delays in the processing of student aid applications and could result in a corresponding decrease in student enrollment. On the basis of the foregoing factors, ISAC finds that there is a threat to the public interest and welfare which constitutes an emergency within the meaning of Section 5.02 of the Illinois Administrative Procedures Act.

ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF EMERGENCY RULES

9) A Complete Description of the Subjects and Issues Involved: The Baccalaureate Savings Act provided for a grant program as a financial incentive to encourage the use of proceeds from matured College Savings Bonds at Illinois colleges or universities. Since the first issue of the College Savings Bonds are maturing this year, these emergency rules will govern the Bonus Incentive Grant (BIG) Program and will establish application and institutional procedures for awarding assistance during the 1991-92 academic year. ISAC will adopt rules through the regular rulemaking process prior to the expiration of these emergency rules.

PROCLAMATION

91-509
ENERGY AWARENESS MONTH

"Energy: Building a Strategy for America's Future"
--1991 theme

Whereas, our future economic prosperity depends greatly upon the wise use of energy and energy producing resources; and
Whereas, the proper use of coal, water, natural gas, petroleum products, and alternative energy sources comprises a highly complex set of issues that are important to our citizens; and

Whereas, while a consensus has not been reached on which energy-saving methods are most efficient, most energy-conscious individuals agree that we should practice energy conservation and promote alternative energy sources, including the use of ethanol-blended fuels; and

Whereas, institutions, government, businesses, and individual citizens must cooperate to achieve meaningful savings in both energy use and dollars to ease the burden of rising costs of energy; and

Whereas, such cooperative efforts are already impacting on our energy-use habits and demonstrating reduced energy consumption;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim October 1991 as ENERGY AWARENESS MONTH in Illinois in conjunction with the national observance and urge all citizens to do their part in conserving energy.

Issued by the Governor October 3, 1991.

Filed with the Secretary of State October 17, 1991.

91-510
ADULT IMMUNIZATION AWARENESS WEEK

Whereas, each year, influenza and pneumococcal pneumonia are responsible for hundreds of deaths among Illinois adults, especially older or chronically ill individuals; and

Whereas, insufficient numbers of adults are immunized against these diseases or against other vaccine-preventable diseases such as measles, mumps, rubella, and hepatitis B; and

Whereas, fewer than half of Illinoisans over age 60 are adequately protected against tetanus and diphtheria; and

Whereas, the lives of many American adults could be spared this year through immunizations with vaccines that are proven safe and effective and are readily available to the public; and

Whereas, preventing disease is more cost effective than treating illness, and immunization is a proven method of prevention;

Therefore, I, Jim Edgar, Governor of the State of Illinois,

Filed with the Secretary of State October 17, 1991.

91-513
BREAST CANCER AWARENESS MONTH

Whereas, in 1991, more than 7,000 Illinois women will be diagnosed as having breast cancer, the most common form of cancer in women; and

Whereas, in 1991, more than 2,000 Illinois women will die from breast cancer; and

Whereas, research shows that deaths from breast cancer could be reduced by at least 30 percent if women followed breast cancer screening recommendations, including routine mammography, regular examination by a physician, and monthly self-examination; and

Whereas, all women in Illinois are at risk, yet only a small percentage of them have had a mammogram in the past year;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim October 1991 as BREAST CANCER AWARENESS MONTH in Illinois and urge women to discuss breast cancer screening with their health-care providers.

Issued by the Governor October 11, 1991.

Filed with the Secretary of State October 17, 1991.

91-514
PHARMACY DAY

Whereas, pharmacists provide valuable professional services such as medication information and drug therapy monitoring. They enhance patient compliance and detect and prevent dangerous drug interactions; and

Whereas, the demand for pharmacy services is greater than ever due to an aging America, more patients taking multiple medications, changes in the settings where health care is delivered, and more drugs becoming available without a prescription; and

Whereas, in 1880, the Illinois Pharmacists Association was established to help regulate pharmacy practice in Illinois. Today more than 2,600 pharmacists comprise the largest professional organization representing pharmacy interests in Illinois; and

Whereas, Illinois pharmacists have strongly supported efforts to improve access to health care services and enhance the quality of our state's health; and

Whereas, the American Pharmaceutical Association and the Joint Commission of Pharmacy Practitioners has declared October 20-26, 1991, as National Pharmacy Week and the Illinois Pharmacists Association is observing Pharmacy Day October 23;

91-511
DOWN'S SYNDROME AWARENESS MONTH

Whereas, the future for individuals born with Down's syndrome, a chromosomal condition, is brighter today ever before; and

Whereas, in the past, restricted settings fostered dependency, preventing individuals with Down's syndrome from achieving their potentials; and

Whereas, today, individuals with Down's syndrome who are removed from, or never enter, isolated environments are successfully experiencing rightful opportunities in their homes and regular public schools, community recreation sites, and competitive work places, alongside nonhandicapped peers; and

Whereas, medical science advances and other technologies have greatly enhanced the health and capabilities of people with Down's syndrome; and

Whereas, socially accepting individuals with Down's syndrome in integrated settings benefits all Illinoisans;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim October 1991 as DOWN'S SYNDROME AWARENESS MONTH in Illinois in conjunction with the national observance.

TRAIL OF HISTORY DAYS

Whereas, the McHenry County Conservation District sponsors the "Trail of History" annually in Glacial Park; and
Whereas, the 1.5 mile "Trail of History" takes visitors back to circa 1830, when Illinois was the western frontier of the United States; and

Whereas, the trail features the sights and sounds of trappers, Indians, traders, pioneers, and soldiers taking part in activities such as wood carving, blacksmithing, tomahawk throwing, corn grinding, cider pressing, hide tanning, clogging, and storytelling; and

Whereas, this year's "Trail of History" will be held Saturday, October 19, and Sunday, October 20;

Whereas, since 1926, the American Arbitration Association, a private, nonprofit organization, has resolved thousands of cases annually, resulting in monetary savings in both public and private sectors; and

Whereas, each year, the organization holds an educational event to bring attention to this expeditious method of problem-solving. This year, a Dispute Resolution Day program will be held October 29 at the Knickerbocker Hotel in Chicago;

The Sections Affected Index lists, by Title, each Section of a codified Part on which rulemaking activity has occurred in this volume of the Register and is divided into two parts: the first lists the Sections on which rulemaking occurred in the previous issues of this volume year; the second lists the Sections on which rulemaking activity occurred in this issue of the Register. (The headings at the top of each page indicate the two parts: the first part shows the previous issue numbers inclusively and the date of the last published issue; the second lists the current issue number and date.) The columns in both parts indicate the type of rulemaking activity and the action taken along with the page number on which the first page of the notice of rulemaking activity appeared. If a Section on which action is being taken in the current volume (calendar year) of the Register was proposed in a previous volume, the last two digits of the previous volume's year appear immediately after the page number separated by a slash.
